## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Matsutani (4604884) in view of prior art as disclosed in the present application, see Fig. 1. Matsutani shows a reamer 1 having three flutes shaped in a angled general "S" shape, Figs. 22 and 23, and further teaches that the cross section can be an isosceles triangle, column 7, lines 35-42. Matsutani does not specifically show the curved "S" shape. The disclosed prior art as shown in Fig. 1 of the present application teaches an "S" shape for flutes. It would be obvious to one of ordinary skill in the art to modify Matsutani to include a curved "S" shape as shown by the disclosed prior art in order to make use of known shapes for flutes to better ream a root canal.

### ***Drawings***

The proposed drawing correction to add the label prior art to the figure has been approved.

The substitute drawing sheet having the proposed correction has been found to be acceptable by the examiner.

***Response to Arguments***

Applicant's arguments with respect to claims 6 and 7 have been considered but are moot in view of the new ground(s) of rejection. Further, it is noted that the above combination is proper because there is no disclose criticality to the specific shape of the flutes.

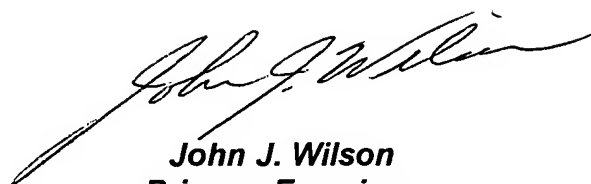

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
